ONICE (ELECTRIC) ALUMINIUM RADIATOR

The FARAL Onice is an innovative electric (only) radiator that is made up of armoured steel rods embedded into highly efficient Aluminium sections. And as well as its aesthetically pleasing appearance the Onice provides a saving with very low power consumption and highly efficient comfortable heating.

The FARAL Onice radiator really lives up to its name when you compare the heat output, efficiency, design and affordable price to other radiators.

| <u>Model</u> | <u>Elements Number</u> | <u>Width mm</u> | <u>Height mm</u> | <u>Depth mm</u> | <u>Output Watts</u> | <u>Price Ex VAT</u> |
|--------------|----------------------------|---------------------|----------------------|---------------------|-------------------------|-------------------------|
| ONICE 1000 | 6 | 535 | 575 | 95 | 1000 | £395.00 |
| ONICE 1600 | 8 | 775 | 575 | 95 | 1600 | £480.00 |
| ONICE 2000 | 10 | 935 | 575 | 95 | 2000 | £545.00 |

Note: The ONICE radiators are supplied complete and easy to install.

Carriage is charged @ **£55.00** EX VAT for up to ten ONICE radiators (Mainland UK only) in one delivery, consignee responsible for unloading from the nearest hard standing position.

ONICE electric radiators are wall mounted in a Ral 9010 finish.

The ONICE radiators also comes with a safety tamperproof block on the controller as standard to avoid any alterations being made by unauthorised persons such as the general public, children, elderly etc.
