

## FLATRAD ( ELEGANT FLAT FRONTED) STEEL RADIATORS

AEL high quality Designer Flat Fronted steel panel radiators.

The AEL flat fronted radiator range is a much more elegant and affordable alternative to the usual basic style of corrugated pressed steel radiators commonly used

The Flatrad radiators are available in 9 heights, 7 depths and 16 lengths and are one of the most energy efficient steel radiators available in the UK today, unlike many other steel radiators the Flatrad is a very strong and durable radiator that can operate at a high system pressure of **10bar** and a temperature of **110 oC** if required to do so.

The Flatrad radiators are available in two styles, the Horizontal Flatrad (**HF**) and the Vertical Flatrad (**VF**), each style is available in a hard wearing RAL 9016 (White) finish as standard with a choice of a further 22 selected factory colours which can be viewed on the back page of the Flatrad brochure.

### Horizontal Flatrad Pricelist ( Includes RAL 9016 white paint finish , wall brackets and fittings)

Radiator Type	HF65 (65mm)	Depth
